

# **6 X 6 MASTER RETURN RESAW**

The 6 x 6 Master Return Resaw is very similar to our 6 x 8 Master Resaws. This automatic return resaw is equipped with a powered hold-down and an innovative powered belt return, which is self adjusting and offers operators the ability to fine-tune the return belt height and angle to fit your specific mix of products. When setting the sawblade to the desired board thickness, the feed belt conveyor and the return belt are all simultaneously adjusted to maintain optimum height for peak performance

## ***STANDARD FEATURES***

**AIR TENSION BLADE SYSTEM**

**ENCLOSED HYDRAULIC SYSTEM**

**EASY HEIGHT ADJUSTMENT**
