

TS10 SINGLE-END TRIM SAW

The Go Fast TS10 Trim Saw is a heavy duty and compact machine, perfect for trimming boards to size. The easy to use moveable length stops are quick to adjust and allow for multiple, simultaneous board sizes.

SIMPLE, SAFE AND STURDY:

The easy stop system makes it **SIMPLE** for the operator to cut boards to length. The operator can **SAFELY** cut boards without ever having to stand on the blade side of the machine or have their hands near rotating shafts and sprockets. **STURDY** is one thing Go Fast had in mind when making the TS10 Trimmers. Weighing approximately 1,600 LBS with 3X3 tubular framing, you can bet that these saws will be around for the long run!
